Product Datasheet

Glass Fibres

UZIN REINFORCEMENT FIBRE

Alkali resistant glass fibres to increase the structural strength of self levelling compounds

MAIN APPLICATION FIELD:

- for weak substrates needing refurbishment
- reduces crack building on weak substrates

PRODUCT BENEFITS/FEATURES:

- easy to admix
- for interior use

TECHNICAL DATA:

Packaging	bag
Pack size	0.25 kg
Color	white

UZIN | A brand of UZIN UTZ

PROTECTION OF THE WORKPLACE AND THE ENVIRONMENT:

The product itself does not require any special labour protection measures. To protect against glass fibres contained in the product, it is recommended to wear protective clothing, suitable protective cream or protective gloves and to wash face and hands after work.

DISPOSAL:

All product residues are treated as normal construction waste.

This product is intended exclusively for professional use by qualified commercial users. It must not be supplied to consumers. The above information is based on our experience and careful investigations. The variety of associated materials and different constructions and working conditions cannot be individually checked or influenced by us. The quality of your work depends, therefore, on your own professional judgement and product usage. If in doubt, conduct a small test or obtain technical advice. Observe the installation recommendations of the floor covering manufacturer. The publication of this Product Data Sheet invalidates all previous product information. The respective updated version of this datasheet can be found on our website under www.uzin.com | 11/2026
